#LightningHackday

exchange union

What we do

What we do

A decentralized exchange.

What we do

A decentralized exchange.

Of centralized exchanges.

What we do

A decentralized exchange.

Of centralized exchanges. (Why? Liquidity.)

What we do

A decentralized exchange.

Of centralized exchanges. (Why? Liquidity.)

On lightning.

@kilrau

What we do

Endgame: every individual running XUD, is part of the network and can trade with everyone else

Who we are

Crypto. Startup. Decentralized.

@kilrau

Who we are

Crypto. Startup. Decentralized.

Not searching for funding.

@kilrau

Our Philosophy: Open Source

XUD is infrastructure.

Open & free for everyone to use.

We open-source everything. Like this PPT.

@kilrau

# Our Philosophy: Open Source

Help building XUD

Get paid in Crypto

Grow developer community

@kilrau

Problems we are working on

DOB

Staking and Punishing

Cross-chain compatibility (lnd, raiden)

The LN future we are excited about

- Watchtowers & Neutrino: safe mobile usage (receive!)
- Dual-funded Channels: fairer!
- Advanced Autopilot: Look ma no hands
- Submarine Swaps & Splicing: never close channels
- AMP: One payment via multiple channels
- Atomic Swaps: Cross-chain compatibility
